

Electrified

MYMP

Your stare is filled with static
Your touch is so electric
I'd give my world, I'd give my all
I'd give you everything and more

But my heart I just can't let it fall
I just can't let it go

Coz your love's got me electrified
It's enough to keep me by your side
It doesn't matter where you are
By my side or way too far
'Coz your love... Got me electrified

Your kiss is so romantic
The way you make me feel is fantastic
Prayed for someone just like you
So maybe you're my dream come true

But my heart I just can't let it fall
I just can't let it go

Coz your love's got me electrified
It's enough to keep me by your side
It doesn't matter where you are
By my side or way too far
'Coz your love... Got me electrified

Oooooooooohhhhhhhh, tell me this is true
The spark I feel I knew is real
It makes me feel alive

Coz your love...

But my heart I just can't let it fall
I just can't let it go

Coz your love's got me electrified
It's enough to keep me by your side

'Coz your love's got me electrified
It's enough to keep me by your side
It doesn't matter where you are
By my side or way too far
'Coz your love... Got me electrified
