

## Love Stood Still

MYMP

Love was a lighthouse guiding the way  
We were two boats on the ocean  
Following shadows that led us astray  
Case of mistaken emotion

Suddenly you've drifted back to my arms  
And while we were lost in the dark

Chorus:

Love stood still  
Movin' us together  
Love stood still  
Leading us towards each other  
Now we're back at the start  
Cos while we were apart  
Love stood still

Love was a fire burned down to the  
Waiting for something to spark  
We were two fireflies drawn to the glow  
Singing you lit the flames in my heart

I had my reasons for letting you go  
But holding you again i know

[repeat Chorus]

Now you ask me to say  
I'll always feel this way  
Now then nothing has ever changed

[repeat Chorus]
