

With You

MYMP

Not to worry on a rainy day
There's a promise it will go away
What a joy, what a sunny day
Haven't you take the sadness away
With you everything seems to go my way

Chorus:

Hold on to a beautiful day
It will lift you up take you to the top
Hold on cause it's here to stay
To help you get through the day
Everyday

Need a reason to the sound of that laugh
There's a promise of sweet embrace
What a joy found a friend in you
Haven't you take away the blues
With you everything seems to go my way

Hold on to a beautiful day
It will lift you up take you to the top
Hold on cause it's here to stay
To help you get through the day
Everyday

Pa ra ra ra ra
La la la la la
With you

Hold on to a beautiful day
It will lift you up take you to the top
Hold on cause it's here to stay
To help you get through the day
Everyday

Hold on to a beautiful day
It will lift you up take you to the top
Hold on cause it's here to stay
To help you get through the day
Everyday
