

One Small Voice

Myra

One small voice can change the world
One small voice can still be heard
In the darkest place on earth
He hears every word

One small voice, a way to start
Words of truth, straight from the heart
Man or woman, boy or girl
It starts out here and goes 'round the world

Kumbaya, Kumbaya
kumbaya, kumbaya
It doesn't matter what the language only what we say
Give us peace on earth this Christmas day

One small voice in the endless night
Full of fear and full of fright
Why can't there be more love for all?
What can I do, for I'm so small?

One small voice, all it takes
makes the world a better place
One small voice, can be heard
Around the world

One small voice can change the world
One small voice can still be heard
