

Flash a Hungry Smile

Mystery Jets

When you walk into the room,
girls growl, boys swoon,
You're the spark that lights the gloom
And my heart sings.. to your tune.

I flash my hungry smile
and it makes you run a mile
Have you heard the birds and bees?
They've all caught STDs
I beg you darling please
I wanna see you on your (ohhh) knees

But all you got to do is do it
To lonely feelings, nothing to it
All you got to is do it now
(ooh-oooh x4)

I flash my hungry smile
and it makes you run a mile

When the hours getting late
You open up your garden gates
If love is just a race
I never seem to come.. first place

But all you got to do it
To lonely feelings nothing to it
If you dont you'll just regret it
But if you do you won't forget it
All you got to do is do it
To know there's feelings, nothing to it
All you got to do is do it, now

Come back to me no need to hide
Make a little room for me tonight
Come back to me no need to hide (2x)
Make a little room for me tonight

(oooh) come back (4x)
come back...
