

Inside Four Walls

Mystery Jets

Inside four walls
I live my life, doesn't matter what I've done
The government's always right
They tell us what to be they tell us what to believe
They're wrong my friend is gone

Inside four walls,
Inside four walls
The day they took away my friend

Injustice made it's mark
All the political whores only come out after dark
If anyone knows the way
Build me a bridge so I won't fall astray

Inside four walls, inside four walls my friend
They took away your freedom
And the pigs still preach their lies

The system falls apart while the pigs still laugh
Feeding off our broken hearts
Can anyone tell me why
Violent crime means far less time?

Inside four walls, inside four walls my friend
They took away your freedom
And the pigs still preach their lies

Inside four walls, inside four walls my friend
They took away your freedom
And the pigs still preach their lies
Inside four walls, inside four walls my friend
They took away your freedom

But they'll never take your mind
