

Body High

Mystery Skulls

Feel your glowin' for the first time,
Lovin' for the first time,
Lovin' for the first time, baby
Feel your glowin' for the first time

I try to make my baby understand,
Move my hands like they're in love
Make you forget about every other man,
Tell you stories with my body love

Live a life on repeat
Girl I'll make this a dream
Let me make you believe in something so right
How'd it happen so real?
Move in closer I did
Will you do the same for me?

I feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby
Feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby

I feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby
Feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby

You, you, you, give me that body high
You, you, you need the body high
You, you, you
Give me that body high, oh oh

Live a life on repeat
Girl I'll make this a dream
Let me make you believe in something so right
How'd it happen so real?
Move in closer I did
Will you do the same for me?

I feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby
Feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby

I feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby
Feel your glowin' for the first time
I know it ain't the first time
I hope it ain't the last time, baby

Ha-ha-ha
Give me that body high
Ha-ha-ha
Give me that body high
Ha-ha-ha
Give me that body high
