

When it's just you
And it's just me
Got my window down 'cause it's my fantasy
You feel so good
Right next to me
You're exactly what I'm looking for

Put your hands together girl
'Cause your love is like a dream to me
Put your hands together girl
'Cause your love is like a dream

And I never knew
All the things you do
And I guess it's cool to know the way you feel is true
And I wonder why
If there's no time
It feels like everything is lining up just right

When it's just you
And it's just me
Got the windows down 'cause it's my fantasy
You feel so good
Right next to me
You're exactly what I'm looking for

Put your hands together girl
'Cause your love is like a dream to me
Put your hands together girl
'Cause your love is like a dream

You're my girl
But know my world
Don't get it twisted
You got me scared
I'm not prepared
And I really didn't mean to fall in love again

When it's just you
And it's just me
Got the windows down 'cause it's my fantasy
You feel so good
Right next to me
You're exactly what I'm looking for

Put your hands together girl
'Cause your love feels like a dream to me
Put your hands together girl
'Cause your love feels like a dream
