

I've been holdin' on
I've been holdin' on
I've been holdin' on

I won't let them take you away from me
I'll be your protection
And I'll fight for you endlessly

I won't let them take you away from me
I'll be your protection
And I'll fight for you endlessly

In my mind
[?] just an illusion
[?] something like this
I just give up

I won't let them take you away from me
I'll be your protection
And I'll fight for you endlessly

I won't let them take you away from me
I'll be your protection
And I'll fight for you endlessly

I won't let them take you away from me
I'll be your protection
And I'll fight for you endlessly

I won't let them take you away from me
I'll be your protection
And I'll fight for you endlessly
