

You think you know about me but you don't know really what you'
re talking 'bout
You act as if I was born yesterday but won't you shut your godd
amn mouth
You're nothing but a has-
been no one even really knows your fucking name
So won't you go and disappear 'cause I won't even play your fuc
king game

You talk to me, like I'm nothing
Said I can't do it like you do
From where I came, from nothing
So you know every inch is true
And we came to fuck with you

I said every little thing that you do
We'll be laughing, we can't hear you
Try and help you see it straight
You were nothing but a fake
You were nothing but a fake

Gonna make you sorry that you met me
Gonna make your insides hurt
I've been laughing, we're all laughing at you
It's funny 'cause you're worse

You talk to me, like I'm nothing
Said I can't do it like you do
From where I came, from nothing
So you know every inch is true
And we came to fuck with you

I said every little thing that you do
We'll be laughing, we can't hear you
Try and help you see it straight
You were nothing but a fake

I said every little thing that you do
We'll be laughing, we can't hear you
Try and help you see it straight
You were nothing but a fake
