

Could've followed me
Followed me in the darkness
Followed me 'til the world ends
Followed me 'til there's nothing left, so take my hand

We could live for forever
We could learn how to fly
We could go all the way
If we could just find a way
We could live for forever (live for forever)
We could push up the sky (push up the sky)
We could go all the way
If we could just find a way

Why is it
That everything that seems beautiful
Seems so far away from here?
Got to get away from here

We could live for forever
We could learn how to fly
We could go all the way
If we could just find a way
We could live for forever
We could push up the sky
We could go all the way
If we could just find a way

We could live for forever
We could learn how to fly
We could go all the way
If we could just find a way
