

Losin My Soul

Mystery Skulls

Bet you really weren't born yesterday
See you treated in your way
It's the same than more than I can do
Wish I really could get through to you

I bet you're loving baby
Times are tough
This shit is crazy
Supersonic love will
Give you everything you ever need

Who's gonna save me from myself?
Who's gonna save me from my own childish games
Who's gonna save me from the help of missing you?
Losin' my soul

And I wish that things could be the same
I know your heart's against me it's such a shame
Wishing you'd let me make this move
For fuck's sake, just to make it through to you

I bet you're loving baby
Times are tough
This shit is crazy
Supersonic love will
Give you everything you ever need

Who's gonna save me from myself?
Who's gonna save me from my own childish games?
Who's gonna save me from the help of missing you?
Losin' my soul

Who's gonna save me from myself
Who's gonna save me from myself

I said time is running out
I don't know what to do
Just feels like time is running out
I haven't got a clue
Give me the answers
You know the ones I wanna hear
Just take the answers
You know the ones I need to hear

Who's gonna save me from myself?
Who's gonna save me from my own childish games?
Who's gonna save me from the help of missing you?
Losin' my soul

Who's gonna save me from myself?
Who's gonna save me from my own childish games?
Who's gonna save me from the help of missing you?
Losin' my soul

Who's gonna save me from myself
Who's gonna save me from myself
