Losin My Soul

Mystery Skulls

Bet you really weren't born yesterday See you treated in your way It's the same than more than I can do Wish I really could get through to you

I bet you're loving baby Times are tough This shit is crazy Supersonic love will Give you everything you ever need

Who's gonna save me from myself? Who's gonna save me from my own childish games Who's gonna save me from the help of missing you? Losin' my soul

And I wish that things could be the same I know your heart's against me it's such a shame Wishing you'd let me make this move For fuck's sake, just to make it through to you

I bet you're loving baby Times are tough This shit is crazy Supersonic love will Give you everything you ever need

Who's gonna save me from myself? Who's gonna save me from my own childish games? Who's gonna save me from the help of missing you? Losin' my soul

Who's gonna save me from myself Who's gonna save me from myself

I said time is running out I don't know what to do Just feels like time is running out I haven't got a clue Give me the answers You know the ones I wanna hear Just take the answers You know the ones I need to hear

Who's gonna save me from myself? Who's gonna save me from my own childish games? Who's gonna save me from the help of missing you? Losin' my soul

Who's gonna save me from myself? Who's gonna save me from my own childish games? Who's gonna save me from the help of missing you? Losin' my soul

Who's gonna save me from myself Who's gonna save me from myself Tištěnozwww.txp.cz
