

On Fire

Mystery Skulls

Your love can take me higher
Love can take me higher, higher

There's something 'bout you
And this nighttime and this music
It feels perfect, love

For the first time I know, baby, I'm on fire
And right now it's overtaking me
There's nowhere else that I would be
Right now, I'm on fire

Your love, it takes me higher
Your love, it takes me higher than I've ever been
Your love means everything

For the first time I know, baby, I'm on fire
And right now it's overtaking me
There's nowhere else that I would be
Right now, I'm on fire

I'm on fire
(Your love can take me higher)
(Love can take me higher, higher)
I'm on fire
(Your love can take me higher)
(Love can take me higher, higher)
I'm on fire
(Your love can take me higher)
(Love can take me higher, higher)
I'm on fire
(Your love can take me higher)
(Love can take me higher, higher)
For the first time I know, baby, I'm on fire
