

Believe In Your Dreams

Mystery

I can feel it coming through the night
I can hear it, see it, touch it
But I can't stop it

There's an Angel
Can't believe my eyes
She takes my hand
Whispering so softly

Believe in your dreams

I know you want it
Now don't deny it
If you take it, be sure you need it

Here comes the Angels
Never told you lies
Look in her eyes, she sets your heart on fire

Believe in your dreams
Seek the light that shines afar
Follow your heart
All the way to the stars

We both know it, and that's our secret
We can keep it or we can share it

Here come the Angels
Can't believe our eyes
They take our hands and fly us to the skies

Believe in your dreams
Seek the light that shines afar
Follow your heart
All the way to the stars

Believe in your dreams
Just follow your heart
Believe in your dreams
And follow your heart
Your heart
