

# Black Roses

Mystery

There's a garden of roses  
I can see from the sky  
I've got wings for my arms  
The wind blows as I fly

So I land near the garden  
There's a voice in my mind  
I look and see an old man  
I believe he is blind

I've been searching for an answer in my dreams  
I think I found it

Black Roses

So he gives me a bouquet  
That he's put in a vase  
His lips don't even move  
Yet I can hear in my mind

Take these roses says the old man  
In the dark you will see  
Never use them as weapons  
And they shall ever be

I've been searching for an answer in my dreams  
Now I know it

Black Roses  
I'm so strong when I fight  
Black Roses  
I believe in my pride  
Black Roses  
Through the clouds I see the light  
Black Roses  
Cause you stand by my side

(Wake up)

Black Roses

I wake up, I can't believe it was a dream  
I turn my eyes, I see the roses on the table  
In a smile, I think of all I will do  
The sun is shining, there's a bird in the sky  
As I walk in the city  
I believe, believe in my pride

Black Roses  
I'm so strong when I fight  
Black Roses  
I believe in my pride

Black Roses  
I'm so strong when I fight  
Black Roses  
I believe in my pride

...I've been lost since  
All the Roses faded away...
