## The forgotten

## **Mystic Circle**

They are the forgotten
They walk the path of enlightement
Science versus religion
Persecuted for centuries

They hate the church In the sign of satan The all-seeing eye Will show them the way

They are the forgotten Ready for the fight They are the forgotten Their time will come

Hunted by the church Adversaries of it's lies They arm in the underground For the final battle

All their works were destroyed All their knowledge tried to erase The order of the illuminati Will rise up again

They are the forgotten
The arky against god
They are the forgotten
Bringing church to it's end
