

Back with the Storm

Mystic Prophecy

With fire take the earth
Resurrection the ultimate death
I'm coming from the hell
Forever under the spell
With the hammer of war I'm back
Violence disease from the black
Burning the temple of lies
Armageddon in disguise
Reckoning day
I show you the way

I'm another crimson in the sky
I can see the fear deep in your eyes
I'm the enemy of scorn
I am back with the storm
The immortal fire makes me strong
To the lords of darkness I belong
I'm the enemy of scorn
I am back with the storm

I believe in blood and pain
I believe in eternal reign
Terrorize you everywhere
In the darkness ashes of despair
I am your nightmare
I'm here - so beware

I'm another crimson in the sky
I can see the fear deep in your eyes
I'm the enemy of scorn
I am back with the storm
The immortal fire makes me strong
To the lords of darkness I belong
I'm the enemy of scorn
I am back with the storm
