

Damnation And Darkness

Mystic Prophecy

He was born again
Living forever in time and space
Master of darkness
Servant for none
His eyes the fire
A soulless being cursed
By sunlight
Excelled by the embrace
Of the night

In the name of fire
Is the secret of hell
In the name of fire
In damnation and darkness

Hunted by his sins in the past
Now he is back to destroy them
As old as the evil
Wicked like sin
We kneel by the force
He was the power

In the name of fire
Is the secret of hell
In the name of fire
In damnation and darkness

Damnation darkness
