

## Die Now

### Mystic Prophecy

What you see is not real - only ecstasy  
And a big damned thrill  
Fucking governments sentence to fighting on the hill  
The only reason is for you to kill or be killed  
Now your back with the flag  
Your soul is black and dead

War kills generations  
No futures - the price  
Death self construction  
For the deadly human race

Die now! I will take your soul now  
Die now!  
Die now! Betray and kill for me now  
Die now! Die now!

Go away - leave me alone  
With your fuckin lies  
Killing feels so fine  
Like a thirsty beast for blood  
With a bullet through your mind  
Evilized - demonized  
Fight like a killing machine  
Have the devil deep within  
And the deadly seventh sin

War kills generations  
No futures - the price  
Death self construction  
For the deadly human race

Die now! I will take your soul now  
Die now!  
Die now! Betray and kill for me now  
Die now! Die now!
