

Fighting the World

Mystic Prophecy

Fight fight fight
Fighting the world
Every single day
Fighting the world
For the right to play
Heavy Metal in my brain
I'm fighting for Metal
'Cause it's here to stay

Fighting, fighting, fighting the world
I been fighting the world
Fighting, fighting, fighting the world
I been fighting
Fight for a living - Fighting the World
Fight for a living - Fighting the World
Fight for a living - Fighting the World
Fight

Now people keep asking
If we're going to change
I look'em in the eye
Tell'em no way
Stripes on a tiger
Don't wash away
Manowar's made of steel
Not clay

Fighting, fighting, fighting the world
I been fighting the World
Fighting, fighting, fighting the world
I been fighting
Fight for a living - Fighting the world
Fight for a living - Fighting the world
Fight for a living - Fighting the world
Fight

See my brother
Standing by my side
Only got one thing
On ever mind
Radio's playing
This nation wide
Turn it up louder
Till we all get fright

Fighting, fighting, fighting the world
I been fighting the world
Fighting, fighting, fighting the world
I been fighting
Fight for a living - Fighting the world
Fight for a living - Fighting the world
Fight for a living - Fighting the world
Fight
Fight - Fighting the world
Fight for a living - Fighting the world
