

## Follow The Blind

### Mystic Prophecy

Tell me the truth  
What can we do  
The future is dead for you  
Don't follow the blind  
Infected your mind  
One nation in grind  
The crime against humanity  
Like serpents wait to bite  
The architects of war is here  
Disaster rule the night  
Stand up and fight  
Fight for your right.

Follow the blind  
The desperation of lies  
Infected your mind  
Follow the blind  
Between in heaven and hell  
(the answer you find)  
Beware  
Follow the blind

Look in his eyes  
Don't sacrifice  
His hearts are cold as ice  
The warlord of war  
Want more and more  
Rotten to the core  
Don't believe his fucking thoughts  
Disgrace shit on TV  
Suicide society... His on eulogy  
Betray... Decay... Democracy.

Follow the blind  
The desperation of lies  
Infected your mind  
Follow the blind  
Between in heaven and hell  
(the answer you find)  
Beware  
Follow the blind.
