

## Metal Brigade

Mystic Prophecy

Can you feel the fire  
Can you fell the flame in your heart  
Black magic desire  
Heavy metal... The sound by your side  
Restless and wild like a thunder in the sky  
Like a eagle on a storm wind we'll fly  
Never let go... Never running away  
For the metal we stay!

We are... The flame and the fire  
We are... Not lions in cage  
We are... The hellfire in metal we made  
We are... The metal brigade.

The number of the beast  
Sick and destroy  
Unleashed in the east  
With Ozzy and Paranoid  
And justice for all  
Reign in blood  
Heeding the call  
Rob Halford the metal god.

We're scream out loud like a thunder in the sky  
For the metal we die!!

We are... The flame and the fire  
We are... Not lions in cage  
We are... The hellfire in metal we made  
We are... The metal brigade.

The number of the beast  
Sick and destroy  
Unleashed in the east  
With Ozzy and Paranoid  
And justice for all  
Reign in blood  
Heeding the call  
Rob Halford the metal god.
