

## War of Lies

### Mystic Prophecy

Screaming out your evil names  
Millions of souls are lost  
In the battlefield of deadly games  
Ashes to ashes and dust to dust  
Kingdom of eternity  
The faith forever lost.

Millions of craves the signs  
The sickened crim of history  
All hope forever lost... The holocaust!!!

War of lies, apocalyptic dust fill the skies  
War of lies, war... Damnation is the price  
War of lies, silhouettes of death will deny  
War of lies, governments of evil in disguise.

Never forgive and never forget  
Don't raised the flag of hate again  
Against the nations that you made.

Never forgive and never forget  
Don't raised the flag of hate again  
Against the nations that you made.

Millions of craves the signs  
The sickened crim of history  
All hope forever lost... The holocaust!!!

War of lies, apocalyptic dust fill the skies  
War of lies, war... damnation is the price  
War of lies, silhouettes of death will deny  
War of lies, governments of evil in disguise.
