

Let Me Be

N-Dubz

NaNa... Niii
N-Dubz Nivo (Going Though)
NaNa
Hey Baby

Yo, I don't even know you and I wanna kick you out the door
Why you stickin' on me like chewing gum on the floor
I might be a little rich, but I weren't before
Your name never stops comin' on my...
Sayin' that we can't come round together
Thinkin' that we're gonna be together forever
You know you're so so pretty
You can have any man that you want like them girls in Sex and the City
Everywhere I go someone's always right behind me
She'd go round the world and back just to try and find me
I ain't gonna lie, you're sumthin else in the bed
But I like you better when you give me head, matter of fact
Leave now, I'm sorry lady
But if you carry on somebody's gonna have a baby
And you're gonna be able to take every little penny they pay me (Never)

Let me be (Let me be)
Let me be
Everywhere I go, someone's always following me

...
Let me be (Let me be)
I got a spot, she always sees me on the TV
That's the reason she likes me
That's the reason you like me
That's the reason

[Greek rapping: Nivo]

Let me be (Let me be)
Let me be (Yeah)
Everywhere I go, someone's always following me

...
Let me be (Let me be)
I got a spot, she always sees me on the TV
That's the reason she likes me
That's the reason you like me
That's the reason

There'll be so many fakes pretending to be your friends
But they won't be around as soon as the shit ends
But for now, they're following everywhere that we go
In your words, make sure you tell 'em Nivo

[Nivo]

I keep trying to tell you
All I wanted was a little bit of space
I feel surrounded, you gotta let me go

Let me be (Let me be)
Let me be
Everywhere I go, someone's always following me

...

Let me be (Let me be)
I got a spot, she always sees me on the TV
That's the reason

Let me be (Let me be)
Let me be
Everywhere I go, someone's always following me

...

Let me be (Let me be)
I got a spot, she always sees me on the TV
That's the reason she likes me
That's the reason you like me
