

Base From Above

N.O.H.A.

Check'm
sitting in the back looking bored
acting like they cool
they be not moving and they
looking like fools

they be thinking pussys going to come up to them,
but they be wrong cause pussy smells
real money in the wind

I see the people in the front giving love
they dancing to the beat
cause they can't get enough
then they yell for more
cause the shit is getting hot
it's time to wake the dead ones
in the back will it work

I want to make you drop pump your ass like this
get you tangled in my web until you get sick
hook on the noha soundsystem buzz
time to wake the dead ones with the base from above

the base from above

Check'm
sitting in the back looking bored acting like they cool,
they be not moving the they
looking like fools
they be thinking pussys going to come up to them,
but they be wrong cause pussy smells
real money in wind

time to wak'm up shake'm up make'm move,
stretch my hands and feel the wild energy
now I feel a block as the dead ones sit around
with a frown they be lergy to the sound bring me down

looking for more of what you came here for
ten years of beats and yo we still bringing more
power in the sound and my ears have found
a way to bring you the base from above

the base from above

Time to do what I came here to do make you move,
if you don't move something's wrong with my groove,
noha bringing sounds flowing like this nonstop,
people in the mix on the move till they drop,

face the sound as the noise gets loud,
the zombies jump around as the music starts to pound,
it's my style to shake up the crowd now,
pump you up and make this thing come to life

now you know what I came here for,
make you sweat, do you still want more,

as the night turns into light,
can you survive...the base from above

the base from above
