

I Need Love

N'sync

I just tell you how I feel
I just wanna have a love that's real
How can I stop this burning desire

I can see that you are the one for me
You're the only one I really need
I need a love that burns like a fire

All I wanna do is give it a chance
Everybody needs a true romance
I would give anything to be with you

I will give you all the love you need
If you only give your love to me
What would I do if I were without you

I need love
You need love
We all really need love

All I want
All I need
We all really need love
