

## I Need Love

N'sync

I just tell you how I feel  
I just wanna have a love that's real  
How can I stop this burning desire

I can see that you are the one for me  
You're the only one I really need  
I need a love that burns like a fire

All I wanna do is give it a chance  
Everybody needs a true romance  
I would give anything to be with you

I will give you all the love you need  
If you only give your love to me  
What would I do if I were without you

I need love  
You need love  
We all really need love

All I want  
All I need  
We all really need love
