

Kill it With Love

Nabiha

Na, na, na oh oh
I look and I run,
But I'm still stuck in the same old pace
I look through the sun,
But the only thing I feel is the rain on my face!
The words that they say, cut like grass when I'm around in my hood
I'll push them away, no sticks and stones make my bones break!

So I put my feet on the ground
Something in the way, walk around
I've got nothing to prove
All we need to do is

Kill it with love!
Don't let it hurt you,
Kill it with love!
Don't let it break you,
Kill it with love!
Nothing can get to you,
All you need to do is
Kill it with love!
Oh, oh, oh, oh

Look what I've done,
I'm up, standing ten feet tall
Gravity's gone,
I'll let go cause I'll know I won't fall!

So I put my feet on the ground
Something in the way, walk around
I've got nothing to prove
All we need to do is

Kill it with love!
Don't let it hurt you,
Kill it with love!
Don't let it break you,
Kill it with love!
Nothing can get to you,
All you need to do is
Kill it with love!
Oh, oh, oh, oh

Love will make the world go round,
The world go round, the world go round!
Love will make the world go round,
The world go round, the world go round!
Love will make the world go round,
The world go round, the world go round!
Love will make the world go round,
The world go round, the world go round!

Kill it with love!
Don't let it hurt you,
Kill it with love!
Don't let it break you,
Kill it with love!

Nothing can get to you,
All you need to do is
Kill it with love!
Oh, oh, oh, oh
