

When the Sun died  
Only the strong survived  
Hear the song of the immortal ones  
Hear the song of Odins sons

Wild and fearless like the beats  
They killed the Romans. Arabs and priests  
One eyed Odin nailed these men  
In peace and when they attacked again

Berserker - rage comes from the heart  
Berserker - let the bloody battle start  
Berserker - With the sword of the holy steel  
Berserker - that's the Triumph of the will

Magic drink let your hate grow  
They fought on sea, in dessert and snow  
Couldn't be beat by Christian scum  
Pagans awake! Our time will come!

The mystery of the endless hate  
In our hearts eternally waits  
Till the time fight goes on  
And the final war is one
