

Be Mine

Nadia Ali

Can't decide whether I am in love
Or if I'm just messed up chasing you around
Don't try and make me go away
You'll only make me want you more and
I will make sure that you see it my way

What's a girl gotta do to get your full attention
No one's gonna do more for you
So you better take it while it's hot and so I'm asking

Be mine I can't wait forever?
Can't you see
You belong to me

A chance is all I need
I just want show you what you're
Missing out cuz life is too short
I know you wanna run but where are you going to go
There's only so much fun without that someone

Where are you going to run boy?
Don't you want my love boy?
