## **Not Thinking**

What is it now? You just want to pick a fight Is something on your mind? Baby, we can make it right

I'm sorry I lied But you wouldn't understand it I didn't really plan it Oh my, my, I really did it this time

I was at the wrong place at the wrong time I should've left before that last glass of wine Wish I hadn't done it, it didn't mean a thing Please believe I made a mistake

Answer the door I know you're there, just open up I'll wait out in the hall I'll stay until morning comes I said I'm sorry I lied But you wouldn't understand it I didn't really plan it Oh my, my, I can't lose you this time

I was at the wrong place at the wrong time I should've left before that last glass of wine Wish I hadn't done it, it didn't mean a thing Please believe I made a mistake

I was at the wrong place at the wrong time I should've left before that last glass of wine Wish I hadn't done it, it didn't mean a thing Please believe I made a mistake

Please believe I made a mistake I was not thinking I was not thinking

Please believe I made a mistake I was not thinking I was not thinking

Please believe I made a mistake I was not thinking I was not thinking

Please believe I made a mistake I was not thinking Not thinking I was not thinking

Please believe I made a mistake I was not thinking I was not thinking at all!
