

Ride With Me

Nadia Ali

Don't you talk?
You know I've heard it
All before
That I'm deserving of
Something more
You think I'm worth it
But you're not the one willing to give it

I don't need you to
Make me a promise
Although it'd be
Some wishful thinking
But you know I think real and it's too up in the air to not bother me

Cuz I believe I know I will find it
All I need is written within me
I was only asking if you'd ride with me
Through this thing called life
I was only asking if you'd ride with me
Through this thing called life

I won't stop
It's not a question
I'll take off
Without directions
With you or not
I'd get over and forget
If you wouldn't come with

All you say is
You want me with you
Go on and on

But how is it true
Forgive me for this doubt
If we build a home in sand it'll only wash away

Cuz I believe I know I will find it
All I need is written within me
I was only asking if you'd ride with me
Through this thing called life
I was only asking if you'd ride with me
Through this thing called life

Good things don't always come
Knocking at your door
Good things come to those
Who want to share with that someone
Don't you, don't you, want to come along?
One day, one day, it's here and another it's gone

Cuz I believe I know I will find it
All I need is written within me
I was only asking if you'd ride with me
Through this thing called life
Cuz I believe I know I will find it
All I need is written within me

I was only asking if you'd ride with me
Through this thing called life
I was only asking if you'd ride with me
Through this thing called life
