

# The One

Nadia Ali

There's no doubt in my mind who you are  
There's no thought other than yours  
My heart felt like a rose in the graveyard  
But you dug in I knew you belonged

You found what was profound  
What was around  
You and I

You're the one where I belong  
I was alone till you came along  
The one  
The one  
A romance fairytale from the start  
I knew I wasn't alone in this world  
Not alone, not alone  
It's true all because you wouldn't let go of you and I

You're the one where I belong  
I was alone till you came along  
The one  
The one

You're the one where I belong  
I was alone till you came along  
The one  
The one
