Do you remember when we first met?
The way you looked I can't forget
I smiled at you
And you smiled back
It felt just like a heart attack
It happened time and time again
I couldn't wait to see you again
Your big brown eyes
Your pretty hair
And this is what I said
I didn't even care

I know your name
I got ur number
I know your game
And now I wonder
If you want me
Like I want you
I got your name
And I got ur number

Now I don't know Quite what to do Cause all I think of Is calling you But do you feel the same way too? Cause I know I I'm feeling you Don't get it twisted I know I'm hot Just need to know If you feel me or not I know your name I got ur number And if you want me baby I can come over

I know your name
I got ur number
I know your game
And now I wonder
If you want me
Like I want you
I got your name
And I got ur number

All I want to do Is see you again All I want to do Is see you again

I know your name I got ur number I know your game And now I wonder If you want me Like I want you I got your name And I got ur number

I know your name I got your number
