

# She's Got One

Najwajejan

So I flip the script and suck the dick  
And make 'em think you've got it all  
And make 'em think you've got it all  
And make 'em think you've got it all

And I'll sleep away inside my head  
And visit the pretty lovely princess

Her blood I? Like jellybean  
She don't even know just when I flip  
Inside their soul like a ghost in a crystal palace  
I'll be alone, I've been there, can save the peak?  
And boom boom, and boom boom

She don't even notice me while inside her soul  
She never needed to know  
She never needed a soul  
Don't even know, she's got one,  
She's got one, she's got one...

So I flip the script and suck the dick  
And make 'em think you've got it all  
And make 'em think you've got it all  
And make 'em think you've got it all

And I'll sleep away inside my head  
And visit the pretty lovely princess

Her blood I? Like jellybean  
She don't even know just when I flip  
Inside their soul like a ghost in a crystal palace  
I'll be alone, I've been there, can save the peak?  
And boom boom, and boom boom

She don't even notice me while inside her soul  
She never needed to know  
She never needed a soul  
Don't even know, she's got one,  
She's got one, she's got one...

Smell the burning knife  
That's splitting me in half

She can't smell the burning knife  
That's splitting me in half (2x)

On the way inside that room that were my pyjama  
He come all the way inside my room  
And he don't stop there

He came all the way inside my pants  
And he don't stop there

It keeps going tearing everything apart and  
He make someone sweet loving sounds  
And he don't stop there

He calls me nuns so hardly that at hurt my help  
I want, my little crying  
And he don't stop there

As he is looking for my soul  
Everything naked from him  
He wanted what he's searching for  
Is? So bad, he came for

I don't wanna die, I don't wanna die

She don't even notice me while inside her soul  
She never needed to know  
She never needed a soul  
Don't even know, she's got one,  
She's got one, she's got one... (3x)

She don't even know
