

## Only In America

Naked Raygun

You start your own company  
Only in America  
Mixing chemicals a new way  
Only in America  
It's good for the economy  
Only in America  
Makin' cancer everyday  
Only in america

Then someone can make a buck  
With the cure for your bad luck  
When you're born you start to die  
Don't know from what  
And you don't know why

So you start your own religious cult  
Only in America  
Live on the San Andreas Fault  
Only in America  
Eat your own weight in salt  
Only in America  
Pick your boogers in your car  
Only in America

Then someone can make a buck  
With the cure for your bad luck  
You buy a couch with food stamps  
Be the woman with Midol cramps

It happens only in the U.S.A.  
Only in America  
Only in the U.S.A.  
Only in America  
Only in the U.S.A.  
Only in America  
Only in the U.S.A.
