

Come With Me

Nana Mouskouri

If you're in a valley
With a troubled mind
I'm a mountain
Come on and climb
Cause you look so good
To be so down
It won't take much
To turn it all around

Come with me
Come with me
The feeling's free
Just come with me
We'll get on a cloud
And ride it high
Say, hello sun
As we sail by

I'll take you where
You never been before
Once we're there
You'll cry for more
If it's dark in your world
Come walk in mine
My love's a light
It's on all the time

Come with me
Come with me
The feeling's free
Just come with me
We'll get on a cloud
And ride it high
Say, hello sun
As we sail by

Come with me
Come with me
The feeling's free
Just come with me
We'll get on a cloud
And ride it high
Say hello sun
As we sail by
