

Maybe This Time

Nana Mouskouri

I give you love, you turn away
Then wonder why it is nobody ever stays
You've been hurt but so's the world
Been hurt a million times before
Don't you close the door
And maybe this time
You'll find the other key
That opens up another door
To find someone's come back for more
Maybe this time

The cards will treat you right
And deal a little magic in the
Middle of some lonely night....
Maybe this time....this time
I always smile I cavalier
But what I feel behind the smile's a little fear
I'm just like you--nobody's fool
Whenever someone gets too close
I play it cool

But maybe this time
We'll find the other key
That opens up another door
To find someone's come back for more
Maybe this time...this time
You turn to go but then hesitate
I wonder can I make you wait
Aren't we a pair--afraid to care

But maybe this time
We'll find the other key
That opens up another door
To find someone's come back for more
Maybe this time
The cards will treat us right
And deal a little magic--in the middle of some lonely night
Maybe this time--maybe this time
Just for me
