

## Only Time Will Tell

Nana Mouskouri

Love changed our lonely lives  
Caught us by surprise  
Opened up our eyes  
Somehow we both knew  
Something rare and true  
Something bright and new  
Could be ours forever  
But love,  
Love can not be planned  
More you try to learn  
Less you understand  
Words could not dispell  
What we know so well  
Only time will tell

Like a tree  
As it grows  
We will reach  
For the sky  
Like a breeze  
Gently blows  
We'll be free  
You and I  
For we know  
Time alone  
Holds the key

Love changed our lonely lives  
Caught us by surprise  
Opened up our eyes  
Somehow we both knew  
Something rare and true  
Something bright and new  
Could be ours forever  
But love,  
Love can not be planned  
More you try to learn  
Less you understand  
Words could not dispell  
What we know so well  
Only time will tell

Only time alone will tell  
Darling, only time will tell
