

# Only You

Nana Mouskouri

Here within my heart  
The very deepest part  
I kept to myself  
But your love made me strong  
And now my heart belongs  
To no one else  
There's no one else

Only you  
Can have the part of me  
I gave to only you  
No one else can love me  
Just the way you do  
No matter what we go through  
Forever I love only you

There's something in your touch  
That tells me just how much  
You feel inside  
You're not afraid to show  
How far your love would go  
There's no end in sight  
So for all my life

Only you  
Can have the part of me  
I gave to only you  
No one else can love me  
Just the way you do  
No matter what we go through  
Forever I love only you

Forever, forever  
Only you  
Can have the part of me  
I gave to only you  
No one else can love me  
Just the way you do  
No matter what we go through

Forever I love only  
Forever I love only you  
Forever I love only you
