

Souvenir

Nana Mouskouri

Love, I am not surprised to find you here
We've traveled through so many seasons now
We've seen joy, we've seen pain and fear
You and I, we made it through somehow

So light our hope and let it catch the breeze
Close you eyes and we can set it free
And though tomorrow's not for us to see
We must follow everywhere it leads

Just let it go, let it go, let it go
Like a star that lights the way
Like a lullaby that calls to you
That's the way our love should always be
Let it go, like the tears of yesterday
Like the laughter of tomorrow
A gift for all eternity
For you, for me

So here's to love and all our future years
These are times we will remember them
And every moment is our souvenir
I'll share them with you until the end

Just let it go, let it go, let it go
Like a star that lights the way
Like a lullaby that calls to you
That's the way our love should always be
Let it go, like the tears of yesterday
Like the laughter of tomorrow
A gift for all eternity
For you, for me

And every moment is our souvenir
I'll share them with you until the end
I'll share them with you until the end
