

# Butterfly

Nana

Intro:

Yeah

Ladies and gentlemen

Please stand up

A warm welcome

A warm welcome

To the one and only

Darkman

(You better run...)

Chorus:

Smooth like a butterfly, sting like a bee

Don't you dare come next to me

I'm gonna knock you off your feet

Show you where you belong to be

Smooth like a butterfly, sting like a bee

Don't you dare come next to me

If you try to challenge me

Whoop your ass

Rap1:

Smooth like a butterfly, sting like a bee

Need your ass whooped, you can call me Ali

Here comes the Darkman from the far country

lives in Hamburg, Western Germany

I got my groove on and I gotta move on

You can't stop me so just watch me

Sold million copies in the 90's

2004 you can still find me

In the office, the studio, maybe in the car

Celebrity box and a partner to spar

one to the body, another to the jaw

One for my sister, two for my bros

that's six, my body got a seven on my trunks

loosin' oxygen supply to my lungs

To me it's no love, to me it's no fun

It's the Darkman baby

(You better run...)

Chorus:

Smooth like a butterfly, sting like a bee

Don't you dare come next to me

I'm gonna knock you off your feet

Show you where you belong to be

Smooth like a butterfly, sting like a bee

Don't you dare come next to me

If you try to challenge me

Whoop your ass

Rap2:

Run for your life, hide if you can

Don't be too bold, 'cause I'm da man

Knock all your doors, switch off your lights

Stop breathing for a second, pause - ignite

Darkman, 100% nothin' but fire

Keep your distance, cause I burn like tyre

Eyes don't lie, I see your desire

Don't need to front, that connects more to wire  
To smoke in the winter, some burn in the summer  
In the City, Toyota - the desert, a Hummer  
No matter how hard you try  
When I hit the floor, you'll bounce back like Jack no  
lie  
My moma said knock you out  
My wife said knock him out  
That's no doubt  
To me it's no love, partner, no fun  
It's the Darkman baby  
(You better run!)

Chorus:

Smooth like a butterfly, sting like a bee  
Don't you dare come next to me  
I'm gonna knock you off your feet  
Show you where you belong to be  
Smooth like a butterfly, sting like a bee  
Don't you dare come next to me  
If you try to challenge me  
Whoop your ass

Chorus:

Smooth like a butterfly, sting like a bee  
Don't you dare come next to me  
I'm gonna knock you off your feet  
Show you where you belong to be  
Smooth like a butterfly, sting like a bee  
Don't you dare come next to me  
If you try to challenge me  
Whoop your ass
