

Elli Kan

Nancy Ajram

That Which Was Before You
When You were not by my side
I wasn't even living a Day
And Who Will Be After You
If your not on my side
I wish to die before that day comes

You know what your love has done to me
I saw a world, that I have never even dreamed off
I dont even know If I was born today

Or If I lived Before You Why was I born
The Best thing to ever happen to me
Was the day you came and told me
That you loved me
Tell me what more would I want
After having your love
?What else would matter

I wish I knew what Ties us together
Something Bigger than Love
Pulled me to You
I dont even know If I was born today
Or If I lived Before You Why was I born
