

## Like i do

Nancy Sinatra

Johnny boy  
Take it slow  
Don't you know  
Don't you know

She may kiss you like I do  
She may hold you like I do  
But she'll never  
No never never  
She will never never love you like I do

She may whisper you're her only  
That without you she is lonely  
But she'll never  
No never never  
She will never never love you like I do

She may sigh, you may fall  
And she'll never be at home when you call  
Can't you tell by her smile  
She just wants your heart to play with for awhile

Take it slow  
Take it slow  
Don't you know  
Don't you know

She may kiss you like I do  
She may hold you like I do  
But she'll never  
No never never  
She will never never love you like I do

Johnny boy  
Take it slow  
Don't you know  
Don't you know

She may kiss you like I do  
She may hold you like I do  
But she'll never  
No never never  
She will never never never never never never love you like  
I ... do  
Like I do
