

# The Hungry Years

Nancy Sinatra

Boy we made it to the top  
We went so high we couldn't stop  
We climbed the ladder leading us nowhere  
Two of us together  
Building castles in the air  
We spun so fast we couldn't tell  
The gold ring from the carrousel  
How could we know  
The ride would turn out bad  
Everything we wanted  
Was everything we had

I miss the hungry years  
The once upon a time  
The lovely long ago  
We didn't have a dime  
Those days of me and you  
We lost along the way  
How could I be so blind  
Not to see the door  
Closing on the world  
I now hunger for  
Looking through my tears  
I miss the hungry years

We shared our daydreams one by one  
Making plans was so much fun  
We set our goals  
And reached the highest star  
Things that we were after  
Were much better from afar  
And here we stand  
Just me and you  
With everything and nothing too  
It wasn't worth the price  
We had to pay  
Baby take me home  
Let's go back to yesterday

I miss the hungry years  
The once upon a time  
The lovely long ago  
We didn't have a dime  
Those days of me and you  
We lost along the way  
How could I be so blind  
Not to see the door  
Closing on the world  
I now hunger for  
Looking through my tears  
I miss the hungry years  
I miss the hungry years
