

## Time

Nancy Sinatra

The sun brought me  
The moon caught me  
The wind fought me  
The rain got me  
The road sent me  
For years bent me  
The stars overwhelmed me  
Time and again  
But now I can't see the stars  
The star is a thing I can't see  
And now I don't feel the same  
To feel is a thing I can't be  
Earth crushed me  
Fame brushed me  
The streets hushed me  
As life touched me  
Time placed me  
Events dazed me  
Love saved me  
Now and again  
But now there can be no love  
Love is a thing I can't be  
And there can be no trust  
Trust is a thing I can't see  
But now there can be no love  
Love is a thing that can't be  
Now I can't be so strong  
Strong is a thing I can't be  
Time and again  
Time and again  
The sun brought me
