## **Hello Like Before**

**Nancy Wilson** 

Hello like before I'd never come here If I'd known that you were here I must admit though That's it's nice to see you, dear You look like you've been doing well

Hello like before I hope we've grown 'Cause we were only children then For laughs I guess we both can say

'I knew when' But then again, that's kiss and tell

Hello like before I guess it's different 'Cause we know each other now I guess I've always known We'd meet again somehow So that it might as well be now

'I knew when' But then again, that's kiss and tell

Hello like before I guess it's different 'Cause we know each other now I guess I've always known We'd meet again somehow So that it might as well be now
