

# I Wanna Be With You

Nancy Wilson

I wanna be with you  
I wanna be with you  
After all the nights  
Of wanting you  
Lying there, loving you, hating you  
Tonight I'm touching you, holding you  
World, you're gonna see  
We'll make it somehow  
Here's my man and me  
You can't hurt us now

We're gonna have it all  
I'll love you every day  
Honey life could be  
So great for us  
Here's our chance  
It's not too late for us  
Grab it fast for life  
Won't wait for us

I wanna be with you  
I wanna be with you  
I wanna be with you
