

## Welcome To My Love

Nancy Wilson

Welcome to my love  
I pray that you to be here  
And now at last you're here  
So welcome to my love

And welcome to my heart  
Where every single beat  
It hoped that we would meet  
So welcome to my heart

Until there's love, my love  
We merely exist  
We walk, we move, we breathe  
And then we are kissed

And just suddenly there's life  
And every month is May  
What else is there to say  
But welcome to my love
